Phone: (c) 425-785-4309

Local Address:
410 Lancaster Ave
Apt 305
Philadelphia, PA 19041

OBJECTIVE: Mechanical engineering graduate student seeks dynamic innovative employer in thermal/fluids field.

EDUCATIONAL BACKGROUND:

<u>Villanova University</u>	Villanova, PA	2007-May 2009
Master of Science in Mechanical Engineering , Certificate in Thermal-fluid Systems		
GPA: 3.4		
Related Coursework:		
Radiation Heat Transfer	Computational Fluid Dynamics	Advanced Thermodynamics
Convection Heat Transfer	Advanced Calculus	Renewable Energy Systems
Conduction Heat Transfer	Management for Engineers	

Publications:

Anderson et al. *Observations on the Behavior of a Liquid Droplet Transported by a Gas Stream Impinging on an Isothermal Surface*, in ICTEA. 2009, Abu Dhabi,UAE.

<u>Villanova University</u>	Villanova, PA	2003-2007
Bachelor of Science in Mechanical Engineering , German Minor		
GPA: 3.1, Member of the Dean's List		

Capstone Design Project:

Water for Waslala: Senior Design Project garnering second place in department. Design of gravity-fed water and treatment systems for rural communities in Waslala, Nicaragua. Design implemented and construction of Zinica #1 completed Fall 2008. Full details found on www.waterforwaslala.org.

SKILLS:

Technical: Fluent, Gambit, MathCAD, Matlab, AutoCAD, Solid Works, ANSYS, Microsoft Office Applications, CNC Manufacturing, Sheet Metal Machinist
Language: German Fluency

WORK EXPERIENCE:

Boeing Co.	Everett, WA	2008
	Renton, WA	2007

Intern-Engineering Analysis

- CFD analyst in environmental control systems responsible for conducting simulations for lab-test correlation and system process improvement of low pressure ground tests
- ECS low pressure design, developed computer models of 737-700 low pressure systems including fluid and thermal models

Villanova University: Dept. of Mech. Eng.	Villanova, PA	2007-2009
--	---------------	-----------

Graduate Research Assistant – Advanced Thermal Fluids Laboratory

- Thermal-Fluid Research focusing on phase change cooling, jet impingement cooling, and experimental forms of liquid cooling
- Experimental methods, and various computational work

PACAAR Inc, Kenworth Truck Division	Renton, WA	2006
--	------------	------

Production Line Assembler

- Riveted back panels and tops to build cabs of semi-trucks

CLUBS AND RELATED ACTIVITIES:
