Objective: I am a full time graduate student seeking an internship for the summer of 2011 with a company that has opportunities for a full time position post graduate school. I hope to work in an engaging and interacting environment which compliments my background in Mechanical Engineering and hands-on capabilities.

Summary of Skills and Strengths:

Extensive fabrication and practical knowledge, strong leadership skills, productive and hard working, work well in teams, dependable

Education:

Villanova University, Villanova, PA
Bachelor of Science in Mechanical Engineering, Cum laude, May 2010
Cumulative GPA: 3.68

Work and Leadership Experience:

NAVSEA, Philadelphia, PA

NREIP internship, code: 985 (summer, 2010)

-Applied superconductivity and cryogenics

Laboratory for Advanced Thermal Fluid Systems, Villanova, PA

Research Assistant (summer, 2008 – present)

-Project 1: Design, analyze, and prototype components to provide a more cost effective and efficient means of installation of an open loop geothermal well system.

-Project 2: Working for an outside pharmaceutical company doing preliminary analysis, testing and re-designing of a prototype which creates patentable solutions.

Turbo Performance Center, Jessup MD

Research and Design Intern (summer, 2007)

-Solid works modeling and design of aftermarket Porsche performance parts.

-Fabrication assistant on TPC race team (Porsche endurance racing league).

Daily Realty, Baltimore, MD

Maintenance Technician (summer 2006)

-Various renovation projects

-General maintenance of office complex

Villanova University Baja SAE, Villanova, PA

Co-President (2009 – '10)

-Primary fabricator

-Mentor for younger member

-Budget accounting

U.S. Navy AM2 Stake Removal Design Project, Villanova, PA

Team lead for design (fall, 2009- spring, 2010)

- Responsible for all final decisions and processes regarding manufacturing and prototyping

Honor/Awards:

-Dean's List (Every Semester)

-Tau Beta Pi, Engineering Honors Society

Applicable Skills:

Software Experience: Ansys, MatLab, MathCad, AutoCAD, Solid Works, LabView

Technical skills: Welding (MIG and TIG), wood and metal fabrication techniques, general knowledge of lab equipment and instrumentation

Service and Extra-Curricular Activities:

-Volunteer for Special Olympics, balloon day, Paul's Place (homeless shelter), and special education

-Intramural sports, guitar, woodworking
